

May 20, 2012

To whom it may concern:

We are pleased to write a letter of recommendation for Kitty Stockton. In February of 2012 we began a search for our first home in the Durham area. We had very little knowledge of the home-buying process and knew we would need a realtor to get started. Several of our friends and co-workers recommended Kitty with high praise so we contacted her and she very quickly met with us.

Kitty is very qualified and an expert in her field. She helped us with every minor and major detail of the process. As first time home buyers we needed a lot of advice, and Kitty was always one step ahead of us. She knows the process so well that she always knew what needed to be done before we even had to ask. Even with our busy work hours, we always knew that Kitty was working hard on our behalf during the time between our meetings. We very much appreciate how accessible Kitty is. She wears her phone at ALL times and very quickly replies to emails, texts, calls, etc. I know that Kitty is a very busy woman and handles many sales, yet she made us feel like we were her only clients. Kitty is a delight to work with, not only with her buyers, but towards everyone she comes in contact with. Thanks to Kitty, we closed on a wonderful home in a great neighborhood! We could not have done it without her and can't imagine using any other realtor's services. We HIGHLY recommend Kitty Stockton, and will definitely be using her for our future real estate needs.

Sincerely,

Jessica and Justin Allen
