

To whom it may concern:

This letter of recommendation for our realtor acknowledges the experience we had with Kitty during the process of selling our home in Chapel Hill. Kitty went well beyond our expectations for a realtor. The house was an older home that was in need of updating and other prep work before it was put n the market. Kitty was active with us in the process of preparing the house for sale and her suggestions were extremely helpful. She shared her experience with local contractors and assisted us to arrange for necessary work to be done while helping to monitor the process from start to finish. We really appreciated her personal interest in our needs and her help. Kitty was understanding of our schedules during the moving staging and guided us seamlessly through the process of the actual sale of our home. Best of all, once we put the house on the market, Kitty sold it quickly. We would highly recommend Kitty Stockton to anyone who is looking for a realtor to assist selling their property.
